unconditionally and irrevocably guaranteed on a subordinated basis by

ASR Levensverzekering N.V.

Unless expressly indicated otherwise, the terms and expressions used herein have the same meaning as given to them in the terms and conditions of the Step-Up Fixed-Floating Securities (the “**Step-Up Securities Terms and Conditions**”) and/or the terms and conditions of the Non Step-Up Fixed Securities (the “**Non Step-Up Securities Terms and Conditions**”) and together with the Step-Up Securities Terms and Conditions, the “**Terms and Conditions of the Securities**”).

The (i) aggregate nominal amount of Step-Up Fixed-Floating Securities and Non Step-Up Fixed Securities to be issued and (ii) net proceeds of issue will be determined by the Issuer following, and on the basis of, the completion of the Offer Period (as described under “*Public Offer – Terms and conditions of the Public Offer*”) and will be published on or about 3 August 2009 on the Issuer’s website (www.asrnederland.nl) and in a press release.

The Securities are perpetual securities and have no fixed redemption date. However, the Step-Up Fixed-Floating Securities and the Non Step-Up Fixed Securities may (subject to the prior approval of the Dutch Central Bank) be redeemed in whole, but not in part, at the option of the Issuer, at their principal amount, in each case together with any Outstanding Payments, on the Coupon Payment Date falling on 26 October 2019 or any Coupon Payment Date thereafter in the case of the Step-Up Fixed-Floating Securities and on 30 September 2019 or any Coupon Payment Date thereafter in the case of the Non Step-Up Fixed Securities. The Step-Up Fixed-Floating Securities and the Non Step-Up Fixed Securities may be redeemed upon the occurrence of a certain tax event or for regulatory purposes, subject to Condition 7 of each of the Step-Up Securities Terms and Conditions and the Non Step-Up Securities Terms and Conditions.

The Step-Up Fixed-Floating Securities will bear interest from (and including) the Issue Date to (but excluding) 26 October 2019 at a fixed rate of 10.0 per cent. per annum payable annually in arrear on 26 October in each year starting 26 October 2010, subject to Conditions 4 and 5 of the Step-Up Securities Terms and Conditions. Payments of interest (but not principal) on the Securities may be deferred, as more fully described in Condition 4 of the Terms and Conditions of the Securities, but any Deferred Coupon Payment (as defined in Condition 19 of the Terms and Conditions of the Securities) will immediately become due and payable if the Issuer makes any payment on or purchases or redeems its Junior Securities or Parity Securities (both as defined in Condition 19 of the Terms and Conditions of the Securities). All payments to holders of the Securities will be made in cash only but to the extent that the Issuer does not otherwise have funds available to make such payments, the moneys to satisfy such Deferred Coupon Payment may only be raised by the issue of Payment Capital Securities (as defined in Condition 19 of the Terms and Conditions of the Securities) equal to the amount of the relevant Deferred Coupon Payments.

The Securities constitute direct, unsecured and subordinated securities of the Issuer as described in Condition 2 of the Terms and Conditions of the Securities.

The payments of all amounts due in respect of the Securities will be unconditionally and irrevocably guaranteed on a subordinated basis by ASR Levensverzekering N.V. (the “**Guarantor**”). See “*Description of the Subordinated Guarantee*”.

This Prospectus has been approved by the Netherlands Authority for the Financial Markets (*‘Stichting Autoriteit Financiële Markten’*) (the “**AFM**”), which is the Netherlands competent authority for the purpose of Directive 2007/71/EC (the “**Prospectus Directive**”) and relevant implementing measures in the Netherlands, as a Prospectus issued in compliance with the Prospectus Directive and the Prospectus Regulation and relevant implementing measures in the Netherlands for the purpose of giving information with regard to the issue of the Securities. Application has been made for the listing of the Securities on Euronext Amsterdam by NYSE Euronext (“**Euronext Amsterdam**”). Euronext Amsterdam is a regulated market for the purposes of Directive 2004/39/EC (the Markets in Financial Instruments Directive). It is anticipated that the Securities will be quoted as a percentage of their principal amount.

The Step-Up Fixed-Floating Securities and the Non Step-Up Fixed Securities are expected to be assigned, on issue, a rating of BBB+ by Standard & Poor’s Rating Services, a division of the McGraw-Hill Companies, Inc and a rating of BBB+ by Fitch Ratings Ltd. As defined by Standard & Poor’s Rating Services, an obligation rated “BBB” means that the obligation exhibits adequate protection parameters. However, adverse economic conditions and changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitment on the obligation. As defined by Fitch Ratings Ltd., a rating of “BBB” means an obligation which has good credit quality and that there is currently expectations of low credit risk. The capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity. This is the lowest investment grade category assigned by Fitch.

A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the relevant rating organisation.

Condition to Payments

No principal or Payment shall be payable by the Issuer if the Guarantor is subject to a Regulatory Event or would be subject to a Regulatory Event within a reasonable period of time after payment of such principal or Payment was scheduled to be made, as notified by the DNB.

A Regulatory Event has been defined to mean that the Guarantor shall have been notified in writing by the Regulator (being *De Nederlandsche Bank N.V.* (the Dutch Central Bank) or any successor regulator) to the effect that at any Coupon Payment Date, the Guarantor's solvency margin or other capital adequacy requirement to which the Guarantor may become subject would after payment of the Coupon Payment be less than the minimum solvency margin or other capital adequacy requirements as applied and enforced by the Regulator or any other appropriate regulator.

Status and Subordination

Status of the Guarantee:

The Guarantee constitutes direct, unsecured and subordinated obligations of the Guarantor. The rights and claims of the Holders under the Guarantee are subordinated to the claims of Senior Creditors of the Guarantor, present and future.

Winding-up Claims

The Securities will rank on a winding-up (*faillissement of vereffening na ontbinding*) of the Issuer in priority to distributions on all classes of share capital of the Issuer and will rank *pari passu* and without preference among themselves and *pari passu* with Parity Securities and Parity Guarantees, but will be subordinated in right of payment to the claims of Senior Creditors of the Issuer, present and future.

Mandatory Deferral of Payments

If the Issuer determines, on the 20th Business Day prior to the date on which any Payment would, in the absence of deferral in accordance with Condition 4 of the Terms and Conditions of the Securities, be due and payable, that the Guarantor is subject to a Regulatory Event or that payment of the relevant Payment under the Guarantee would result in the Guarantor becoming subject to a Regulatory Event, the Issuer shall defer such Payment.

Any Payment so deferred by the Issuer shall only be satisfied by the Issuer to the extent that a Mandatory Payment Event or Mandatory Partial Payment Event occurs. See Condition 4(c).

Optional Deferral of Payments The Issuer may at its option elect to defer any Payment for any period of time. However if the Issuer makes this election, the deferred Payment will continue to bear interest at the Applicable Coupon Rate for the full period for which such Payment remains unpaid.

Deferred and Future Interest Payments/Dividend Pusher Any Payment which has been deferred will become immediately due and payable if the Issuer or the Guarantor makes payment on or purchases or redeems any Parity Securities or Junior Securities, as the case may be, notwithstanding any further Deferral Notice or an occurrence or continuance of the Mandatory Deferral Condition. Such payments must be made by utilising the Alternative Coupon Satisfaction Mechanism.

Furthermore, notwithstanding a deferral of Coupon Payments under a Mandatory Deferral Notice or an Optional Deferral Notice, the Issuer will be required to make Coupon Payments falling on a certain number of following Coupon Payment Dates upon the occurrence of a Mandatory Payment Event or a Mandatory Partial Payment Event in respect of the Issuer. Such payments may be made by utilising the Alternative Coupon Satisfaction Mechanism.

If and as long as the Mandatory Deferral Condition is met, the Guarantor will be required to make Coupon Payments falling on a certain number of following Coupon Payment Dates upon the occurrence of a Mandatory Payment Event or a Mandatory Partial Payment Event in respect of the Guarantor.

Dividend Stopper The Issuer has agreed that if it defers a Payment for any reason as described above then, while any Payment is so deferred, it will not recommend to its respective shareholders and, to the fullest extent permitted by applicable law, will otherwise act to prevent, any action that would constitute a Mandatory Payment Event or Mandatory Partial Payment Event.

Alternative Coupon Satisfaction Mechanism Any Deferred Coupon Payment (together, if applicable, with any interest accrued on such Deferred Coupon Payment) will be satisfied using the Alternative Coupon Satisfaction Mechanism. This mechanism means that the relevant payment is satisfied from the proceeds of the issue by the Issuer of such amount of Payment Capital Securities for cash as may be required to provide cash issue proceeds sufficient to enable the Issuer to pay the relevant Payment in full. If, as and when the Issuer elects to satisfy any Payment to Holders, the Issuer will calculate (failing which, the Calculation Agent will calculate) and issue such principal amount of Payment Capital Securities the proceeds of issue of which will provide the cash amount due in respect of the Deferred Coupon Payment. Holders of the Securities will always receive payments made in respect of the Securities in cash.

Sufficiency The Issuer is required to keep available for issue enough Payment Capital Securities as it reasonably considers would be required to satisfy from time to time the next year's scheduled Coupon

Payment(s) and any then outstanding Deferred Coupon Payments.

Market Disruption Event

If, in the opinion of the Issuer, a Market Disruption Event in respect of its Payment Capital Securities exists on or after the 15th Business Day preceding any date upon which the Issuer is due to satisfy a Payment using the Alternative Coupon Satisfaction Mechanism, the payment to Holders may be deferred until the Market Disruption Event no longer exists. Any such deferred payments shall bear interest at the Applicable Coupon Rate if the Market Disruption Event continues for 14 days or more.

A Market Disruption Event is defined to mean (i) the occurrence or existence of any suspension of or limitation imposed on trading (by reason of movements in price exceeding limits permitted by the Relevant Stock Exchange or on settlement procedures for transactions in the Payment Capital Securities on the Relevant Stock Exchange) if, in any such case, that suspension or limitation is, in the determination of the Issuer material in the context of the sale of the Payment Capital Securities, (ii) where, in the opinion of the Issuer, there has been a substantial deterioration in the price and/or value of the Payment Capital Securities or circumstances are such as to prevent or to a material extent restrict the issue or delivery of the Payment Capital Securities, (iii) where, pursuant to the Terms and Conditions of the Securities, moneys are required to be converted from one currency into another currency in respect of any Payment, the occurrence of any event that makes it impracticable to effect such conversion or (iv) where, in the opinion of the Issuer, there shall have been such a change in national or international financial, political or economic conditions or currency exchange rates or exchange controls as would in its view be likely to prejudice materially the success of the offering and distribution of the Payment Capital Securities or dealings in the Payment Capital Securities in the secondary market, if any.

Additional Amounts

The Issuer will, subject to customary exceptions, pay additional amounts to Holders of the Securities to gross up Payments upon the imposition of any Dutch withholding tax. See Condition 10.

Redemption or Conversion for Taxation Reasons

Upon the occurrence of certain changes in the treatment of the Securities for taxation purposes as described in Condition 7(c) of the Terms and Conditions of the Securities, the Issuer may, subject to the prior consent of DNB, redeem all but not some only of the Securities at their principal amount together with any Outstanding Payments or modify the terms of the Securities or convert the Securities into another series of capital securities, as more fully described in the Terms and Conditions of the Securities.

In the case of the Step-Up Fixed-Floating Securities, such redemption shall in the period before the Reset Date be effected at the greater of their principal amount and the Make Whole Amount if the relevant changes to the tax treatment do not result from a Tax Law Change (see Condition 7(d) of the Terms and Conditions of the Step-Up Fixed-Floating Securities).

Listing

Application has been made to list the Securities on Euronext Amsterdam by NYSE Euronext. It is anticipated that the Securities will be quoted as a percentage of their principal amount.

Ratings

The Step-Up Fixed-Floating Securities and the Non Step-Up Fixed Securities are expected to be assigned, on issue, a rating of BBB+ by Standard & Poor's Rating Services, a division of the McGraw-Hill Companies, Inc and a rating of BBB+ by Fitch Ratings Ltd. As defined by Standard & Poor's Rating Services, an obligation rated "BBB" means that the obligation exhibits adequate protection parameters. However, adverse economic conditions and changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitment on the obligation. As defined by Fitch Ratings Ltd., a rating of "BBB" means an obligation which has good credit quality and that there is currently expectations of low credit risk. The capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity. This is the lowest investment grade category assigned by Fitch.

Risk Factors

There are certain factors that may affect the Issuer's ability to fulfil its obligations under the Securities, including, without limitation, that the Issuer's results can be adversely affected by general economic conditions and other business conditions, the Issuer's performance is subject to substantial competitive pressures that could adversely affect its results of operations credit risk, market risk, liquidity risk and operational risk. In addition there are certain factors which are material for the purpose of assessing the market risks associated with Securities. See '*Risk Factors*' below.

Governing Law

The Securities and the Guarantee will be governed by, and construed in accordance with the laws of the Netherlands.

RISK FACTORS

Prospective investors should read the entire Prospectus.

Each of the Issuer and the Guarantor believes that the factors described below represent the material risks inherent in investing in the Securities, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or in connection with the Securities may occur for other reasons. The risks described below are not the only risks the Issuer or the Guarantor faces. Additional risks and uncertainties not presently known to the Issuer and the Guarantor, or that either of them currently believes to be immaterial, could also have a material impact on either or both of their business operations and/or their ability to make payments in respect of the Securities. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

In addition, factors which are material for the purpose of assessing the market risks associated with the Securities are described below.

Words and expressions defined in the 'Terms and Conditions of the Securities' below or elsewhere in this Prospectus have the same meanings in this section, unless otherwise stated.

Factors that may affect the Issuer's ability to fulfil its obligations under the Securities or the Guarantor's obligations under the Guarantee

The Issuer's and Guarantor's results can be adversely affected by general economic conditions and other business conditions

The Issuer's and Guarantor's results are affected by general economic and other business conditions. These conditions include changing economic cycles that affect demand for insurance products. Such cycles are also influenced by global political events, such as terrorist acts, war and other hostilities as well as by market specific events, such as shifts in consumer confidence, industrial output, labour or social unrest and political uncertainty.

The Issuer's and Guarantor's performance is subject to substantial competitive pressures that could adversely affect its results of operations

There is substantial competition for the types of insurance products and services that the Issuer and Guarantor provide in the Netherlands and the other regions in which the Issuer and Guarantor conduct large portions of its business. Such competition is affected by consumer demand, technological changes, the impact of consolidation, regulatory actions and other factors. If the Issuer or Guarantor is unable to provide attractive product and service offerings that are profitable, it may lose market share or incur losses on some or all activities.

The Issuer's and Guarantor's performance is dependent on developments in the insurance markets

The Issuer is active in both the life and non-life insurance markets whereas the Guarantor is active in the life insurance market. The Issuer's and Guarantor's results can be influenced by the frequency and severity of insured losses, as well as the level and development of mortality and morbidity rates and of the resistance of the insurance portfolio. Furthermore, it is possible that the Issuer or the Guarantor will not be able to reinsure certain risks in an economically responsible way.

Because the life and non-life businesses of the Issuer and the life business of the Guarantor are subject to claims resulting from unforeseeable and/or catastrophic events, which are inherently unpredictable, the actual claims amount of the Issuer or the Guarantor may exceed the established reserves or the

Issuer or the Guarantor may experience an abrupt interruption of activities, each of which could result in lower net profits and have an adverse effect on its results of operations.

In its life and non-life businesses, the Issuer and, in its life business, the Guarantor, is subject to losses from natural and man-made catastrophic events. Such events include, without limitation, weather and other natural catastrophes such as wind and hailstorms, floods, earthquakes and pandemic events, as well as events such as terrorist attacks. The frequency and severity of such events, and the losses associated with them, are inherently unpredictable and can not always be adequately reserved for. In accordance with industry practices, reserves are established based on estimates using actuarial projection techniques. The process of estimating is based on information available at the time the reserves are originally established. Although the Issuer and the Guarantor continually review the adequacy of the established claim reserves, and based on current information, the Issuer and the Guarantor believe their respective claim reserves are sufficient, there can be no assurances that their actual claims experience will not exceed its estimated claim reserves. If actual claim amounts exceed the estimated claim reserves, its earnings may be reduced and net profits may be adversely affected. In addition, because unforeseeable and/or catastrophic events can lead to abrupt interruption of activities, their insurance and other operations may be subject to losses resulting from such disruptions. Losses can relate to property, financial assets, trading positions and also to key personnel. If their business continuity plans are not able to be put into action or do not take such events into account, losses may further increase.

Because the Issuer and Guarantor operate in a highly regulated industry, changes in statutes, regulations and regulatory policies that govern activities in their various business lines could have an effect on their operations and net profits.

The insurance and other operations of the Issuer and Guarantor are subject to insurance and financial services statutes, regulations and regulatory policies that govern what products the Issuer and Guarantor sell and how the Issuer and Guarantor manage their business. Changes in existing statutes, regulations and regulatory policies, as well as changes in the implementation of such statutes, regulations and regulatory policies may affect the way the Issuer and Guarantor do business, their ability to sell new policies, products or services and their claims exposure on existing policies. In addition, changes in tax laws may affect their tax position and/or the attractiveness of certain of their products, some of which currently have favourable tax treatment. Furthermore, changes in local or general accounting principles may affect the financial position and/or the results of the Issuer and Guarantor.

The solvency position of the Issuer and the Guarantor may have an impact on their business and also on their ability to make timely payments on the Securities

The Issuer and Guarantor are subject to supervisory or regulatory laws and regulations on the basis whereof they will be required to maintain minimum required levels of a solvency margin and/or a capital adequacy ratio. Changes in such supervisory or regulatory laws and regulations may have a material effect on the business, financial condition and operations of the Issuer and Guarantor and on payments by the Issuer and Guarantor under the Securities, including deferral thereof. If the Guarantor's solvency margin were to drop below the required minimum level, the Issuer nor the Guarantor would be required to make any Payment (such term does not include principal) on the Securities for any period of time subject to suspension of payment on Junior Securities and Parity Securities, as more particularly described in 'Terms and Conditions of the Securities – 4. Deferrals'. In addition, the terms of the Securities generally provide that any payments by the Issuer under the Securities shall be conditional upon the Guarantor's solvency margin not being or dropping below the required minimum level before or as a result of the relevant payment.

Credit Risk

The Issuer and Guarantor are exposed to credit risk with respect to their results or equity position in the event one or more of its debtors defaults on its contractual obligations. Excessive defaults could have a materially adverse effect on the Issuer's or Guarantor's business, results of operations and financial condition.

Liquidity Risk

Liquidity risk arises if the Issuer and Guarantor would not be able to comply with current or contingent liabilities at their due date. It consists of (i) a funding risk, i.e. the risk that the Issuer or Guarantor cannot meet any scheduled or unexpected demand for cash from policy holders or other contracting parties and (ii) a market liquidity risk, i.e. the risk that the Issuer or the Guarantor is not able to convert assets in cash as a result of unfavourable market conditions or a market disruption.

Market Risk

The Issuer and Guarantor may suffer losses as a result of market developments relating to the trade in or holding of financial instruments or property. Market risk results from a number of factors such as :

- interest rate fluctuations which affect bonds, other assets with interest related income and insurance liabilities;
- changes in the market price of securities which affect the value of investment portfolios and insurance liabilities;
- foreign currency fluctuations which affect any non-hedged cash flows;
- changes in the volatility of interest rate levels and securities prices;
- changes in the market price of property which affect the value of trade or investment portfolios.

Operational Risk

Operational risk includes event risk and business risk. Event risk can be defined as the risk of loss arising from the inadequacy or failure of procedures, individuals or internal systems, or even external events. It also includes litigation risk. Business risk may adversely affect an operational activity of the Issuer and Guarantor as a result of for instance changes in the competitive environment or legal or fiscal changes. These may result in changes to the volume, prices or margins of the Issuer's or Guarantor's products while the costs remain fixed.

Risk relating to the Securities

The Issuer's and Guarantor's obligations under the Securities and the Guarantee, respectively, are subordinated

The rights and claims of the Holders under the Securities and the Guarantee are unsecured and subordinated to the claims of Senior Creditors of the Issuer and the Guarantor, as applicable, present and future. **“Senior Creditors”** means present and future creditors of the Issuer or the Guarantor, as applicable (a) who are unsubordinated creditors of the Issuer or the Guarantor, as applicable, or (b) whose claims are, or are expressed to be, subordinated (whether only in the event of the winding-up (*faillissement of vereffening na ontbinding*) of the Issuer or the Guarantor, as applicable, or otherwise) to the claims of unsubordinated creditors of the Issuer or the Guarantor, as applicable, but not further or otherwise or (c) who are subordinated creditors of the Issuer or the Guarantor, as applicable, other than those whose claims are, or are expressed to rank, *pari passu* with, or junior to, the claims of the Holders.

Although the Securities may pay a higher rate of interest than comparable securities which are not subordinated, there is a real risk that an investor in the Securities will lose all or some of his investment should the Issuer become insolvent.

Deferral

The Issuer may elect to defer any Payment (such term does not include principal) on the Securities for any period of time subject to suspension of payment on Junior Securities and Parity Securities, as more particularly described in ‘*Terms and Conditions of the Securities – 4. Deferrals*’. Unless deferral is required as described under ‘*Terms and Conditions of the Securities – 4. Deferrals – (a) Mandatory Deferral of Payments*’, any deferred Payment will bear interest at the Applicable Coupon Rate.

Perpetual securities

The Issuer is under no obligation to redeem the Securities at any time and the Holders have no right to call for their redemption.

Redemption risk

Upon the occurrence of certain specified tax or regulatory events, or the Coupon Payment Date falling on 26 October 2019 or any Coupon Payment Date thereafter in the case of the Step-Up Fixed-Floating Securities and on 30 September 2019 or any Coupon Payment Date thereafter in the case of the Non Step-Up Fixed Securities, the Securities may be redeemed at their principal amount together with any Outstanding Payments (as defined in ‘*Terms and Conditions of the Securities – 19. Definitions*’), subject as provided in ‘*Terms and Conditions of the Securities – 7. Redemption and Purchases*’.

No limitation on issuing debt

There is no restriction on the amount of debt which the Issuer may issue which ranks senior to the Securities or on the amount of securities which the Issuer may issue which ranks *pari passu* with the Securities. The issue of any such debt or securities may reduce the amount recoverable by Holders on a winding-up (*faillissement of verefenning na ontbinding*) of the Issuer or may increase the likelihood of a deferral of Payments under the Securities.

Availability of shares

If the Issuer is to make a payment using the Alternative Coupon Satisfaction Mechanism and the Issuer has an insufficient number of Payment Capital Securities available for issue, then the Issuer’s payment obligation shall be suspended to the extent of such insufficiency until such time as sufficient Payment Capital Securities are available to satisfy all or part of the suspended payment obligation, as more particularly described in ‘*Terms and Conditions of the Securities – 6. Alternative Coupon Satisfaction Mechanism – (d) Insufficiency*’.

Market Disruption Event

If, following a decision by the Issuer to satisfy a payment using the Alternative Coupon Satisfaction Mechanism, in the opinion of the Issuer a Market Disruption Event in respect of the Payment Capital Securities exists, the payment to Holders may be deferred until the cessation of such market disruption, as more particularly described in ‘*Terms and Conditions of the Securities – 6. Alternative Coupon Satisfaction Mechanism – (d) Market Disruption*’. Any such deferred payments shall bear interest at the Applicable Coupon Rate if the Market Disruption Event continues for 14 days or more.

Restricted remedy for non-payment

The sole remedy against each of the Issuer and the Guarantor available to the Trustee or any Holder for recovery of amounts owing in respect of any Payment or principal in respect of the Securities will be the institution of proceedings for the winding-up (*faillissement of verefenning na ontbinding*) of the Issuer and/or the Guarantor and/or proving in any such winding-up (*faillissement of verefenning na ontbinding*).

Set-off

Subject to applicable law, no Holder may exercise or claim any right of set-off in respect of any amount owed to it by the Issuer arising under or in connection with the Securities and each Holder shall, by virtue of being the Holder of any Security, be deemed to have waived all such rights of set-off.

Absence of prior public markets

The Securities constitute an issue of new securities by the Issuer. Prior to this issue, there will have been no public market for the Securities. Although application has been made for the Securities to be listed on Euronext Amsterdam by NYSE Euronext, there can be no assurance that an active public market for the Securities will develop and, if such a market were to develop, the Dealer Managers are under no obligation to maintain such a market. The liquidity and the market prices for the Securities can be expected to vary with changes in market and economic conditions, the financial condition and prospects of the Issuer and other factors that generally influence the market prices of securities.

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Exchange Offer

The Securities are being issued in furtherance of the Exchange Offer, which is being made by the Issuer to the holders of the Trust Securities. In addition, the Issuer is offering the New Issue Securities to other subscribers.

The purpose of the Exchange Offer is to enable the Issuer to continue to utilise hybrid capital within its capital funding structure, in keeping with the Issuer's newly formulated capital and business strategy following its separation from the Fortis Group. The Exchange Offer will also allow the Issuer to replace the indirectly issued Trust Securities with directly issued securities and to remove the complicated trust and partnership structure which is currently in place in respect of the Trust Securities.

The Exchange Offer is made on the terms and subject to the conditions set out in the Exchange Offer and Consent Solicitation Memorandum.

The Issuer may choose, in its sole discretion and without limiting its right to otherwise extend, amend, waive any condition of or terminate the Exchange Offer as provided in this Exchange Offer and Consent Solicitation Memorandum, to amend the terms and conditions of the Exchange Offer to provide for (i) the decision as to, and announcement of, whether the Issuer accepts offers of Trust Securities for exchange in the Exchange Offer, and (ii) the Issue Date to be delayed.

The issue of the Securities is conditional upon the satisfaction or waiver by the Issuer of the Exchange Offer Conditions (as defined in the Exchange Offer and Consent Solicitation Memorandum).

The Exchange Offer is not being made to the public in Belgium, France or Portugal.

The Step-Up Fixed-Floating Securities are constituted by the Trust Deed to be dated on or about 6 August 2009. The issue of the Step-Up Fixed-Floating Securities was authorised pursuant to a resolution of the Management Board of the Issuer passed on 21 April 2009. The statements in these Terms and Conditions of the Fixed Floating Securities (the “**Step-Up Securities Terms and Conditions**”) include summaries of, and are subject to, the detailed provisions of the Trust Deed. Copies of the Trust Deed and the Agency Agreement dated on or about 6 August 2009 are available for inspection during normal business hours by the Holders at the registered office of the Trustee, being at Amsterdamsch Trustee's Kantoor B.V., Olympic Plaza, Fred Roeskestraat 123, 1076 EE Amsterdam, the Netherlands and at the specified office of each of the Paying Agents. The Holders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the Agency Agreement applicable to them.

1. Form, Denomination and Title

(a) Form and Denomination

The Step-Up Fixed-Floating Securities are in bearer form and shall be in denominations of €1.00 each. The Step-Up Fixed-Floating Securities will be represented by a global security (the “**Step-Up Global Security**”) without interest coupons attached. The Step-Up Global Security will be deposited with *Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V.* (“**Euroclear Netherlands**”) and thereby become subject to the Dutch Securities Giro Transfer Act (*Wet Giraal Effectenverkeer*, “**WGE**”). The Step-Up Global Security will not be exchangeable for definitive bearer Securities.

(b) Transfer and Title

Interests in the Step-Up Global Security will be transferable only in accordance with the provisions of the WGE and the rules and procedures for the time being of Euroclear Netherlands and its participants (*aangesloten instellingen*) and all transactions in (including transfer of) the Step-Up Fixed-Floating Securities, in the open market or otherwise, must be effected through participants of Euroclear Netherlands. The bearer of the Step-Up Global Security will be the only person entitled to receive payments in respect of the Step-Up Global Security. Each person who is for the time being shown in the records of Euroclear Netherlands or any of its participants as the holder of a particular nominal amount of such Step-Up Fixed-Floating Securities (in which regard any certificate or other document issued by Euroclear Netherlands or such participant as to the nominal amounts of Step-Up Fixed-Floating Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and the Paying Agents as the holder of such nominal amount of such Step-Up Fixed-Floating Securities for all purposes other than with respect to the payment of principal or interest on the Step-Up Fixed-Floating Securities, for which purpose the bearer of the Step-Up Global Security shall be treated by the Issuer and the Paying Agents as the holder of such Step-Up Fixed-Floating Securities in accordance with and subject to the terms of the Step-Up Global Security (and the term “**Holder**” shall have the corresponding meanings).

2. Status and Guarantee

(a) *Status and Subordination of the Step-Up Fixed-Floating Securities:* The Step-Up Fixed-Floating Securities constitute direct, unsecured, subordinated securities of the Issuer and rank *pari passu* without any preference among themselves. The rights and claims of the Holders under the Step-

Up Fixed-Floating Securities are subordinated to the claims of Senior Creditors of the Issuer, present and future.

- (b) (i) *Conditions to payments by the Issuer*: Payments in respect of the Step-Up Fixed-Floating Securities (and application of the proceeds of the issue of Payment Capital Securities in accordance with Condition 6) are conditional upon the Guarantor not being subject to a Regulatory Event at the time of the relevant payment (or at the time of application of the proceeds of the issue of such Payment Capital Securities) and no principal or Payments shall be payable in respect of the Step-Up Fixed-Floating Securities (including application of the proceeds of the issue of Payment Capital Securities in accordance with Condition 6) except to the extent that the Guarantor is not subject to a Regulatory Event and could make such payment (or apply the proceeds of such issue of Payment Capital Securities) and still not be subject to a Regulatory Event within a reasonable period of time after payment of such principal or Payment was scheduled to be made, as notified by the DNB.

For the purposes of this Condition 2(b)(i) any reference to a payment by the Issuer in respect of a Step-Up Fixed-Floating Security shall be deemed to include a redemption or purchase of such Step-Up Fixed-Floating Security by the Issuer.

- (ii) *Winding-Up Claims of the Issuer*: Amounts in respect of principal or Payments in respect of which the conditions referred to in Condition 2(b)(i) are not satisfied on the date upon which the same would otherwise be due and payable (“**Winding-Up Claims**”) will be payable by the Issuer in a winding-up (*faillissement of vereffening na ontbinding*) of the Issuer as provided in Condition 3 and on any redemption pursuant to Condition 7(b), 7(c), 7(d) or 7(e). Any amount payable in respect of a Winding-Up Claim shall not itself bear interest.
- (iii) *Set-off*: Subject to applicable law, no Holder may exercise or claim any right of set-off in respect of any amount owed to it by the Issuer arising under or in connection with the Step-Up Fixed-Floating Securities and each Holder shall, by virtue of being the bearer of any Step-Up Fixed-Floating Security, be deemed to have waived all such rights of set-off.
- (c) *Guarantee*

Subject to the terms of the Guarantee, the Guarantor has irrevocably and unconditionally agreed to guarantee on a subordinated basis the Issuer's payment obligations under the Step-Up Fixed-Floating Securities as, if and when the same become due.

3. **Winding-up**

If at any time an order is made, or an effective resolution is passed, for the winding-up (*faillissement of vereffening na ontbinding*) of the Issuer (except in any such case a solvent winding-up solely for the purpose of a reconstruction or amalgamation or the substitution in place of the Issuer of a successor in business (as defined in the Trust Deed) of the Issuer, the terms of which reconstruction, amalgamation or substitution have previously been approved in writing by the Trustee or by an Extraordinary Resolution (as defined in the Trust Deed)), a winding-up amount shall be payable by the Issuer in respect of each Step-Up Fixed-Floating Security (in lieu of any other payment by the Issuer). The Step-Up Fixed-Floating Securities will rank on a winding-up (*faillissement of vereffening na ontbinding*) of the Issuer in priority to distributions on any Ordinary Shares and will rank *pari passu* with each other and among themselves, but will be subordinated in right of payment to the claims of Senior Creditors of the Issuer, present and future.

In a winding-up (*faillissement of vereffening na ontbinding*) of the Issuer, Holders of the Step-Up Fixed-Floating Securities will only have a claim for payment in full or part of principal and Deferred

Coupon Payments, if any, to the extent that distributable assets of the Issuer are sufficient to pay in full or part such amount of principal and such Deferred Coupon Payments.

4. Deferrals

The Issuer must make each Coupon Payment on the relevant Coupon Payment Date subject to and in accordance with these Step-Up Securities Terms and Conditions. Without prejudice to the generality of Condition 2 and subject to Condition 4(c), the Issuer must, or as the case may be, may, defer a Coupon Payment and any other Payment in the following circumstances:

(a) *Mandatory Deferral of Payments*

- (i) Subject to Condition 4(c), if, on the 20th Business Day preceding the date on which any Payment would, in the absence of deferral in accordance with this Condition 4(a)(i), be due and payable, the Mandatory Deferral Condition is met, any such Payment shall (subject to Condition 6) be deferred by the Issuer giving notice in writing (a “**Mandatory Deferral Notice**”) to the Trustee, the Holders (in accordance with Condition 15), the Principal Paying Agent and the Calculation Agent not less than 16 Business Days prior to such due date.
- (ii) Following the deferral of a Payment by the Issuer under Condition 4(a)(i), the Issuer shall only satisfy such Payment as provided pursuant to Condition 4(c) hereof.
- (iii) If any Payment is deferred pursuant to this Condition 4(a) then no amount will be payable by way of interest on any such deferred Payment, save as provided in Condition 6(d).

Any such deferred Payment shall be satisfied from the proceeds of the issue of Payment Capital Securities in accordance with Condition 6.

(b) *Optional Deferral of Payments*

- (i) Subject to Condition 4(c), the Issuer may in respect of any Payment which would, in the absence of deferral in accordance with this Condition 4(b)(i), be due and payable, defer all or part of such Payment by giving a notice (an “**Optional Deferral Notice**”) to the Trustee, the Holders (in accordance with Condition 15) the Principal Paying Agent and the Calculation Agent not less than 16 Business Days prior to the relevant due date. Subject to Condition 4(c), the Issuer shall then satisfy any such Payment at any time by means of an issue of Payment Capital Securities in accordance with Condition 6 upon delivery of a notice to the Trustee, the Principal Paying Agent and the Calculation Agent not less than 16 Business Days prior to the relevant Deferred Coupon Satisfaction Date informing them of its election to so satisfy such Payment and specifying the relevant Deferred Coupon Satisfaction Date.
- (ii) If any Payment is deferred pursuant to this Condition 4(b), then such deferred Payment shall bear interest at the Applicable Coupon Rate from (and including) the date on which (but for such optional deferral) the Deferred Coupon Payment would otherwise have been due to be made to (but excluding) the relevant Deferred Coupon Satisfaction Date.

(c) *Dividend Pusher; Mandatory Payments and Mandatory Partial Payments*

Whether or not a deferral has taken place pursuant to Condition 4(a) or 4(b) above, the Issuer will be required to make payments on the Step-Up Fixed-Floating Securities in the following circumstances:

- (i) If a Mandatory Payment Event occurs in respect of the Issuer, then subject as provided in the next sentence, the Coupon Payment payable on the next Coupon Payment Date, being within a period of 6 months after the occurrence of the Mandatory Payment Event (or after the Reset Date, each of the next four Coupon Payment Dates) will be mandatorily due and payable in full on such next Coupon Payment Date (or, after the Reset Date, the next four Coupon Payment Dates), notwithstanding the delivery of any Mandatory Deferral Notice or Optional Deferral Notice relating to such Coupon Payments or the occurrence or continuance of any Mandatory Deferral Condition. If, after the Reset Date, the Mandatory Payment Event is a payment on a Junior Security or on a Junior Guarantee or on a security benefiting from a Junior Guarantee which, in each case, is in respect of a semi-annual dividend, then the Coupon Payments payable on only the next two Coupon Payment Dates (instead of the next four Coupon Payment Dates) will be due and payable in full on such Coupon Payment Dates notwithstanding the delivery of any Mandatory Deferral Notice or Optional Deferral Notice relating to such Coupon Payments or the occurrence or continuance of any Mandatory Deferral Condition. The Issuer may, but shall not be required to satisfy its obligation to make the Coupon Payment payable on such Coupon Payment Date in accordance with the Alternative Coupon Satisfaction Mechanism.
- (ii) If a Mandatory Partial Payment Event occurs in respect of the Issuer, then Mandatory Partial Payments will be mandatorily due and payable in respect of each Step-Up Fixed-Floating Security, notwithstanding the delivery of any Mandatory Deferral Notice or Optional Deferral Notice or an occurrence or continuance of the Mandatory Deferral Condition. Such Mandatory Partial Payments shall be payable on the immediately next Coupon Payment Date (or, after the Reset Date, such Mandatory Partial Payments shall be payable on each of the four consecutive Coupon Payment Dates, the immediately next two consecutive Coupon Payment Dates or the immediately next Coupon Payment Date, as the case may be, after the occurrence of such Mandatory Partial Payment Event, depending on whether the Parity Securities pay dividends or income distributions on an annual basis, semi annual basis or a quarterly basis, as the case may be). The Issuer is permitted, but shall not be required, to satisfy its obligation to pay any Mandatory Partial Payments in accordance with the Alternative Coupon Satisfaction Mechanism.
- (iii) If a Mandatory Payment Event or a Mandatory Partial Payment Event occurs in respect of the Issuer, then all Deferred Coupon Payments will become mandatorily due and payable in full on the date of the Mandatory Payment Event or Mandatory Partial Payment Event, notwithstanding any further Deferral Notice or an occurrence or continuance of the Mandatory Deferral Condition.
- (iv) As provided pursuant to Clause 4 of the Guarantee, if during the period that the Mandatory Deferral Condition has been met a Mandatory Payment Event or a Mandatory Partial Payment Event occurs in respect of the Guarantor, then all Deferred Coupon Payments will become mandatorily due and payable in full on the date of the Mandatory Payment Event or Mandatory Partial Payment Event, notwithstanding any further Deferral Notice or continuance of the Mandatory Deferral Condition.
- (v) The Issuer may satisfy its obligations to pay any Deferred Coupon Payments referred to in Condition 4(c)(iii) and (iv) above only in accordance with the Alternative Coupon Satisfaction Mechanism. For the avoidance of doubt the Issuer will not be required to utilise the Alternative Coupon Satisfaction Mechanism in order to satisfy its obligation to pay any Mandatory Partial Payment payable on a date that coincides with the date on which such Deferred Coupon Payment has become mandatorily due and payable in full.

(d) *Dividend Stopper*

The Issuer has agreed that if it defers a payment for any reason as described above then, while any payment is so deferred, it will not recommend to its shareholder(s) and, to the fullest extent permitted by applicable law, will otherwise act to prevent, any action that would constitute a Mandatory Payment Event or Mandatory Partial Payment Event.

5. Coupon Payments

(a) *Coupon Payment Dates*

Subject to Condition 4(b)(ii), the Step-Up Fixed-Floating Securities bear interest at the Fixed Coupon Rate from (and including) the Issue Date to (but excluding) the Reset Date and at the Floating Coupon Rate from (and including) the Reset Date. Such interest will (subject to Conditions 2(b)(i), 4(a), 4(b) and 6(d)) be payable on each Coupon Payment Date. Each Step-Up Fixed-Floating Security will cease to bear interest from the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused. In such event, it shall continue to bear interest at the prevailing rate in accordance with this Condition (both before and after judgment) as provided in the Trust Deed.

If any Coupon Payment Date would otherwise fall on a day which is not a Business Day it shall be postponed to the next Business Day unless it would then fall into the next calendar month in which event the Coupon Payment Date shall be brought forward to the preceding Business Day. The amount of the relevant Coupon Payment shall not be adjusted as a result.

(b) *Coupon Rate*

The Coupon Rate payable from time to time in respect of the Step-Up Fixed-Floating Securities will be determined on the basis of the following provisions:

- (i) The "Fixed Coupon Rate" in respect of the period from (and including) the Issue Date to (but excluding) the Reset Date is 10.0 per cent. per annum.
- (ii) The "Floating Coupon Rate" in respect of each Coupon Period commencing on or after the Reset Date shall be the aggregate of Three Month EURIBOR plus the Margin in respect of such Coupon Period (as determined by the Calculation Agent on the relevant Interest Determination Date).

(c) *Determination and Publication of Coupon Rate and Coupon Amounts*

The Calculation Agent will, upon the determination of each Floating Coupon Rate pursuant to Condition 5(b)(ii), calculate the Coupon Amount and cause the Floating Coupon Rate and each Coupon Amount payable in respect of a Coupon Period to be notified to the Trustee, the Issuer, the Principal Paying Agent, Euronext Amsterdam N.V. and the Holders and to be published on the website of the Issuer as soon as possible after their determination but in no event later than the fourth Business Day thereafter.

Whenever it is necessary to calculate an amount of interest in respect of any Step-Up Fixed-Floating Security for a period and such period ends prior to the Reset Date, such interest shall be calculated by applying the Fixed Coupon Rate to the principal amount of such Step-Up Fixed-Floating Security, multiplying such sum by the Fixed Day Count Fraction and rounding the resultant figure to the nearest cent, half a cent being rounded upwards.

Whenever it is necessary to calculate an amount of interest in respect of any Step-Up Fixed-Floating Security for a period and such period begins on or after the Reset Date, such interest shall be

calculated by applying the Coupon Rate prevailing for such period to the principal amount of such Step-Up Fixed-Floating Security, multiplying such sum by the actual number of days in the relevant period divided by 365 or, in the case of a period falling in a leap year, 366, and rounding the resultant figure to the nearest cent, half a cent being rounded upwards.

(d) *Determination or Calculation by Trustee*

If the Calculation Agent does not at any time for any reason (i) determine the Coupon Rate in accordance with Condition 5(b)(ii), or (ii) calculate a Coupon Amount in accordance with Condition 5(c), the Trustee or an agent on its behalf shall do so and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the Trustee or such agent shall apply the foregoing provisions of this Condition, with any necessary consequential amendments, to the extent that, in its opinion, it or such agent can do so, and in all other respects it or such agent shall do so in such manner as it shall deem fair and reasonable in all the circumstances. In addition, the Issuer may elect at any time to satisfy its obligation to make any Payment (other than Deferred Coupon Payments or a payment of principal) to Holders by using the Alternative Coupon Satisfaction Mechanism. “**Alternative Coupon Satisfaction Mechanism**” means that the relevant payment is satisfied from the proceeds of the issue by the Issuer of such amount of Payment Capital Securities as may be required to provide cash issue proceeds sufficient to enable the Issuer to pay the relevant Payment in full, in accordance with and subject to the following provisions of this Condition 6. Holders of the Step-Up Fixed-Floating Securities will always receive payments made in respect of the Step-Up Fixed-Floating Securities in cash.

If the Issuer uses the Alternative Coupon Satisfaction Mechanism, the Issuer shall notify the Trustee, the Holders, the Principal Paying Agent and the Calculation Agent not less than 16 Business Days prior to the relevant Coupon Payment Date. To the extent that the Alternative Coupon Satisfaction Mechanism is not used to make any Payment, subject to Condition 4(a) (*Mandatory Deferral of Payments*) and Condition 4(b) (*Optional Deferral of Payments*), such Payment must be satisfied in accordance with Condition 8(a).

(b) *Issue of Payment Capital Securities*

If any Payment is to be satisfied in accordance with the Alternative Coupon Satisfaction Mechanism then, subject to Condition 6(d):

- (i) by close of business on or before the seventh Business Day prior to the relevant Coupon Payment Date or Deferred Coupon Satisfaction Date the Issuer will issue such number of Payment Capital Securities as, in the determination of the Issuer, have a market value of not less than the relevant Payment to be satisfied in accordance with this Condition 6;

- (ii) if, after the operation of the above procedures, there would in the opinion of the Issuer be a shortfall on the date on which the relevant Payment is due, the Issuer shall issue further Payment Capital Securities in accordance with the provisions of the Trust Deed to ensure that a sum at least equal to the relevant Payment is available to make the Payment in full on the relevant due date provided that if, despite the operation of the aforementioned provisions, such a shortfall exists on the relevant due date the Issuer will in accordance with the provisions of the Trust Deed continue to issue Payment Capital Securities until the Principal Paying Agent shall have received funds equal to the full amount of such shortfall;
- (iii) if the Issuer fails, by the date or time specified, to make any of the determinations as to the number of Payment Capital Securities required to be issued, as described in paragraphs (i) and (ii) above, the Trustee shall appoint the Calculation Agent to perform such obligations.

(c) *Receipt of cash proceeds in respect of Issue of Payment Capital Securities satisfies Payment*

The proceeds of sale of Payment Capital Securities in accordance with this Condition 6 shall be paid by the Principal Paying Agent to the Holders in respect of the relevant Payment.

(d) *Market Disruption*

Notwithstanding the provisions of Condition 6(b), if there exists, in the opinion of the Issuer (subject, where necessary, to determinations made by the Calculation Agent) a Market Disruption Event on or after the 15th Business Day preceding any date upon which a Payment is due to be made or satisfied in accordance with this Condition 6, then the Issuer may give notice in writing to the Trustee, the Principal Paying Agent, the Calculation Agent and the Holders (in accordance with Condition 15) as soon as practicable after the relevant Market Disruption Event has arisen or occurred, whereupon the relevant Payment shall be deferred until such time as (in the opinion of the Issuer) the Market Disruption Event no longer exists.

Any such Payment deferred in accordance with this Condition 6(d) will be paid as soon as practicable following such time as, in the opinion of the Issuer, the Market Disruption Event no longer exists. Interest shall not accrue on such deferred Payment unless, as a consequence of the existence of a Market Disruption Event, the Issuer does not make the relevant Payment for a period of 14 days or more after the due date therefor, in which case interest shall accrue on such deferred Payment from (and including) the date on which the relevant Payment was originally due to have been made to (but excluding) the date on which such Payment is actually made. Any such interest shall accrue at the Applicable Coupon Rate and shall be satisfied only in accordance with this Condition 6 and as soon as reasonably practicable after the relevant deferred Payment is made. No liability shall attach to the Trustee or its agents if, as a result of a Market Disruption Event or any other event outside the control of the Trustee or any such agent, the Trustee or any such agent is unable to comply with the provisions of Condition 6(b).

Subject to Condition 2(b)(i), the Issuer may, subject to the prior consent of the Regulator and by giving not less than 30 nor more than 60 days' prior notice to the Holders in accordance with Condition 15 and to the Principal Paying Agent and the Trustee, which notice shall be irrevocable, elect to redeem all, but not some only, of the Step-Up Fixed-Floating Securities on the Coupon Payment Date falling on 26 October 2019 or any Coupon Payment Date falling thereafter at their principal amount together with any Outstanding Payments.

- (i) the Issuer would, for reasons outside its control, be unable to make such Payment without being required to pay additional amounts as provided or referred to in Condition 10; or
- (ii) payments of amounts in respect of interest on the Step-Up Fixed-Floating Securities including, for the avoidance of doubt, the issue of Payment Capital Securities pursuant to Condition 6, may be treated as "distributions" within the meaning of Section II of the Dividend Withholding Tax Act 1965 (*Wet op de dividendbelasting 1965*) (or such other Section and/or Act as may from time to time supersede or replace Section II of the Dividend Withholding Tax Act 1965 for the purposes of such definition) and such requirement or circumstance cannot be avoided by the Issuer taking such measures as it (acting in good faith) deems appropriate; or
- (iii) there is more than an insubstantial risk that the Issuer will not obtain full or substantially full relief for the purposes of Dutch corporation tax for any payment of interest including, for the avoidance of doubt, where the Payment is to be satisfied by the issue of Payment Capital Securities,

then the Issuer may (and subject to Condition 2(b)(i) and to the prior consent of the Regulator), having given not less than 30 nor more than 60 days' prior notice to the Trustee, the Principal Paying Agent and, in accordance with Condition 15, the Holders (which notice shall be irrevocable):

The Issuer is permitted to satisfy its obligation to pay any Deferred Coupon Payment due upon conversion only in accordance with the Alternative Coupon Satisfaction Mechanism.

Prior to the publication of any notice of redemption, modification or conversion pursuant to this Condition 7(c), the Issuer shall deliver to the Trustee a certificate signed by a member of the Management Board of the Issuer stating that the relevant requirements or circumstances referred to in sub-paragraphs (i), (ii) or (iii) above is satisfied and the Trustee shall be entitled, without further investigation or enquiry, to accept such certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Holders.

- (iii) there is more than an insubstantial risk that the Issuer will not obtain full or substantially full relief for the purposes of Dutch corporation tax for any payment of interest including, for the avoidance of doubt, where the Payment is to be satisfied by the issue of Payment Capital Securities,

then the Issuer may (and subject to Condition 2(b)(i) and to the prior consent of the Regulator), having given not less than 30 nor more than 60 days’ prior notice to the Trustee, the Principal Paying Agent and, in accordance with Condition 15, the Holders (which notice shall be irrevocable):

Prior to the publication of any notice of redemption, modification or conversion pursuant to this Condition 7(d), the Issuer shall deliver to the Trustee a certificate signed by a member of the Management Board of the Issuer stating that the relevant requirements or circumstances referred to in sub-paragraphs (i), (ii) or (iii) above is satisfied and the Trustee shall be entitled, without further investigation or enquiry, to accept such certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Holders.

1. Guarantee

ASR Levensverzekering N.V. The Guarantor's obligations under the Guarantee are independent of the obligations of the Issuer with respect to the Securities and the Guarantor shall be liable as principal and sole obligor under the Guarantee to make the following payments pursuant to the terms hereof (without duplication): (i) any accumulated but unpaid Payments on the Securities and (ii) the redemption amount payable with respect to any Securities called for redemption by the Issuer, in each case plus interest accrued thereon from the date of making the claim under the Guarantee, and in each case subject to the limitations set forth herein (together the "**Guaranteed Payments**").

2. Status

- (a) *Status and Subordination of the Guarantee:* The Guarantee constitutes direct, unsecured, subordinated obligations of the Guarantor. The rights and claims of the Holders under the Guarantee are subordinated to the claims of Senior Creditors of the Guarantor, present and future.
- (b) (i) *Conditions to payments by the Guarantor:* Payments in respect of the Guarantee are conditional upon the Guarantor not being subject to a Regulatory Event at the time of the relevant payment and no Guaranteed Payment shall be payable except to the extent that the Guarantor is not subject to a Regulatory Event and could make such payment and still not be subject to a Regulatory Event within a reasonable period of time after payment of such Guaranteed Payment was scheduled to be made, as notified by DNB.
- (ii) *Winding-Up Claims of the Guarantor:* Any Guaranteed Payments in respect of which the conditions referred to in clause 2(b)(i) are not satisfied on the date upon which the same would otherwise be due and payable ("**Winding-Up Claims**") will be payable by the Guarantor in a winding-up (*faillissement of vereffening na ontbinding*) of the Guarantor. A Winding-Up Claim shall not bear interest.
- (iii) *Set-off:* Subject to applicable law, no Holder may exercise or claim any right of set-off in respect of any amount owed to it by the Guarantor arising under or in connection with the Guarantee and each Holder shall, by virtue of being the bearer of any Security, be deemed to have waived all such rights of set-off.

The Guarantee will rank on a winding-up (*faillissement of vereffening na ontbinding*) of the Guarantor in priority to distributions on any

Ordinary Shares and will rank *pari passu* with each other and among themselves, but will be subordinated in right of payment to the claims of Senior Creditors of the Guarantor, present and future.

In a winding-up (*faillissement of vereffening na ontbinding*) of the Guarantor, Holders will only have a claim for payment in full or part of the Guaranteed Payments, if any, to the extent that distributable assets of the Guarantor are sufficient to pay in full or part such Guaranteed Payments.

If, after the Reset Date for the Step-Up Fixed-Floating Securities, the Mandatory Payment Event is a payment on a Junior Security or on a Junior Guarantee or on a security benefiting from a Junior Guarantee which, in each case, is in respect of a semi-annual dividend, then the Coupon Payments payable on only the next two Coupon Payment Dates (instead of the next four Coupon Payment Dates) will be due and payable in full on such Coupon Payment Dates notwithstanding the delivery of any Mandatory Deferral Notice relating to such Coupon Payments or the occurrence or continuance of any Mandatory Deferral Condition.

The Guarantor hereby waives any right or remedy to require that any action be brought against the Issuer or any other person or entity before proceeding against the Guarantor.

In the event that the Guarantor makes any payments under the Guarantee, the Issuer will reimburse the Guarantor in the full amount of such payments.

History and Structure of ASR Nederland

ASR Nederland's roots can be traced back to the eighteenth century. In 1720, Stad Rotterdam was founded. Over the years a number of insurance companies joined Stad Rotterdam and formed the ASR Group. Fortis, founded in 1990 by the Dutch insurer AMEV and Bank Group VSB, acquired the ASR Group in 2000. AMEV and ASR Group merged to Fortis ASR Group, later rebranded into Fortis Verzekeringen Nederland. After the sale to the Dutch state in October 2008, Fortis Verzekeringen Nederland became a stand-alone insurer. Recently Fortis Verzekeringen Nederland was rebranded into ASR Nederland.

Relationship with the State of the Netherlands

On 3 October 2008 the Dutch State purchased all of ASR Nederland's outstanding shares from Fortis, and thus became its 100% shareholder. The Dutch State has indicated that it intends to hold the shares for a limited period of time and to dispose of those shares within the next 2 to 5 years, but no final timeline for such disposal has been set. Since this acquisition ASR Nederland is fully separate from the Fortis organisation.

The Dutch State wishes to prevent that private institutions such as ASR Nederland use their relationship with the State when competing with other financial institutions. The State and ASR Nederland have entered into a contractual arrangement to prevent such use.

Regulatory Status

Most of the Issuer's subsidiaries qualify as an insurance company within the meaning of EU Insurance Company Directives. Such subsidiaries are authorised by the Dutch Central Bank to pursue the business of an insurance company in the Netherlands in accordance with the Financial Supervision Act ("*Wet op het financieel toezicht*"), and are consequently supervised by the Dutch Central Bank. In addition, these insurance companies are supervised by the AFM for the purpose of conduct of business supervision.

ASR Vastgoed

ASR Nederland has two property companies: ASR Vastgoed Vermogensbeheer and ASR Vastgoed Ontwikkeling. ASR Vastgoed Vermogensbeheer invests and manages assets for ASR Nederland and its third party clients. It focuses on building and exploiting direct property portfolios of residential and commercial property located in the Netherlands. ASR Vastgoed Ontwikkeling concentrates on developing residential and commercial property.

STRATEGIC OBJECTIVES

ASR Nederland intends to operate as a stand-alone insurer for the time being. The Dutch State's shareholding in ASR Nederland is temporary, but no fixed timeline for a privatisation has been determined. The Board of Directors and Supervisory Board have been asked to formulate a proposal for the future of ASR Nederland and in the course of 2009 they intend to present their revised strategy. The strategic focus will be to rebalance long-term customer and shareholder value. The basic principles underlying everything ASR Nederland does will be the changing needs of the modern customer and the changing market environment where growth can no longer be taken for granted and margins are under pressure. This applies not only to ASR Nederland's products, but also to ASR Nederland's communication about them. Customers must be able to understand what they may expect and ASR Nederland should not create more expectations than it will be able to fulfil. Examples of this are the measures concerning unit-linked policies and notice periods for private nonlife insurances.

Cost savings of EUR 100 million

Conditions in the market have changed. Any strategy will require a further decrease of costs/turnover ratio in order to remain competitive. As growth of turnover can no longer be taken for granted, the importance of a lower cost level will increase still further. Therefore, ASR Nederland intends to achieve a cost saving of EUR 100 million on ASR Nederland's total gross cost base of EUR 730 million up to mid-2010. By so doing ASR Nederland intends to reduce its cost ratio significantly. To this end ASR Nederland will take measures that include:

- Merging the back-offices of ASR Verzekeringen and De Amersfoortse;
- Merging support departments;
- Accelerating its current programme (OPEX) for making processes efficient and customer driven;
- Downsizing the workforce. To this end ASR Nederland will take measures to limit the hiring of external staff and some vacancies will not be filled. ASR Nederland does not rule out compulsory redundancies. Under ASR Nederland's existing social plan, the primary consideration will be to assist in job-to-job moves.

THE ISSUER IN 2008

Gross premiums

Despite difficult market conditions ASR Nederland's gross earned premiums increased by 11% to EUR 5,777 million in 2008. Sales in the Life branch totalled EUR 3,491 million, 12% higher than in 2007. The increase was driven mainly by the addition of a few large pension contracts. In the Non-Life branch ASR Nederland's premiums grew by 9% to EUR 2,288 million. Almost all product lines showed an increase in gross earned premiums. The increase in sales was achieved mainly in the first half of 2008. The financial markets and, particularly in the final quarter, the negative sentiment surrounding Fortis, exerted pressure on the further development of sales at ASR Nederland in the second half of the year.

Net result

The net result of ASR Nederland fell to a loss of EUR 640 million in 2008. The result was negatively affected by more than EUR 1 billion by the following factors: turbulence in the financial markets (EUR 615 million), provisions created for the guarantee obligations (EUR 186 million) due to declining financial market valuations and the reinforcement of the provision for compensation of unit-linked policies (EUR 248 million) under agreements with consumer organisations. The net result in 2007, which was an exceptionally good year, was EUR 889 million. The investment result in 2007 was high due to reduction of and hedges on ASR Nederland's equity portfolio as well as a good result on individual shares.

Operating costs

Operating costs increased by 6% to EUR 592 million. This was mainly due to the separation of ASR Nederland from Fortis. The remainder of the increase was driven by investments in the new direct distribution channel and by essential investments in IT modifications necessitated in part by new legislation. Nevertheless, ASR Nederland's cost ratio in the Life branch decreased to 13.4% (2007:14.0 %). The figure for the Non-Life branch stayed flat at 115.9 % . To remain competitive, it is essential to further reduce ASR Nederland's costs/turnover ratio. As stated above, ASR Nederland therefore intends to achieve a cost saving of EUR 100 million on ASR Nederland's total gross cost base of EUR 730 million up to mid-2010.

Equity and buffer capital

Total equity in 2008 - i.e. shareholders' equity including the unrealised revaluation of ASR Nederland's real estate portfolio - decreased from EUR 3,487 million to EUR 1,757 million. The main cause of the decrease was the negative investments revaluation of EUR 1,192 million, along with the net loss of EUR 640 million. The buffer capital expressed as a percentage of the required minimum capital stood at 233% at year end 2008.

Recent Developments

Financial markets continued their downward trend of 2008 in the first months of 2009 and showed some signs of recovery during the last months. In general, the current economic environment as well as the negative sentiment around investment insurance policies has put pressure on the premium volumes of the insurance sector in the Netherlands in the first months of 2009. S&P has affirmed the Insurer Financial Strength Rating (IFSR) of the Guarantor on 20 May 2009. The rating is 'A', with a negative outlook. On 5 June 2009, Fitch announced a 1 notch downgrade to an 'A' IFSR rating for the Guarantor and assigned a 'BBB+' long-term Issuer Default Rating (IDR) to the Issuer; both ratings have a negative outlook.

On 3 October 2008, the Dutch State nationalised Fortis Verzekeringen Nederland N.V. (which has been called ASR Nederland N.V. since March 2009) and became the sole shareholder. Following this change in ownership, ASR Nederland commenced a separation process from Fortis Group, which commenced in the fourth quarter of 2008. ASR Nederland has always been a 'stand-alone' company within Fortis Group and the separation activities have been largely confined to support departments (HQ departments), for example human resources and information services and technology. The interweaving was very limited operationally. Consequently, the separation has a small impact on ASR Nederland's operational business. The separation process is progressing favourably and is expected to be completed later in 2009.

Material Contracts

There are no material contracts that are not entered into in the ordinary course of business, which could result in the Issuer being under an obligation or entitlement that is material to the issuer's ability to meet its obligations to security holders in respect of the Securities.

NETHERLANDS TAXATION

General

The following summary describes the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Securities, but does not purport to be a comprehensive description of all Netherlands tax considerations thereof. This summary is intended as general information only and each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Securities.

This summary is based on the tax legislation, published case law, treaties, regulations and published policy, in force as of the date of this Prospectus, though it does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) holders of Securities holding a substantial interest (*aanmerkelijk belang*) in the Issuer. Generally speaking, a holder of Securities holds a substantial interest in the Issuer, if such holder of Securities, alone or, where such holder is an individual, together with his or her partner (statutory defined term) or certain other related persons, directly or indirectly, holds (i) an interest of 5 % or more of the total issued capital of the Issuer or of 5 % or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- (ii) investment institutions (*fiscale beleggingsinstellingen*); and
- (iii) pension funds, exempt investment institutions (*vrijgestelde beleggingsinstellingen*) or other entities that are exempt from Netherlands corporate income tax.

Withholding tax

All payments made by the Issuer under the Securities may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Corporate and individual income tax

- (a) Residents of the Netherlands

If a holder is resident or deemed to be resident of the Netherlands for Netherlands tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of its enterprise to which the Securities are attributable, income derived from the Securities and gains realised upon the redemption, settlement or disposal of the Securities are generally taxable in the Netherlands (up to a maximum rate of 25.5%).

If an individual holder is resident or deemed to be resident of the Netherlands for Netherlands tax purposes (including the individual holder who has opted to be taxed as a resident of the Netherlands), income derived from the Securities and gains realised upon the redemption, settlement or disposal of the Securities are taxable at the progressive rates of the Netherlands income tax act 2001 (up to a maximum rate of 52%), if:

- (i) the holder has an enterprise (*ondernemer*) or an interest in an enterprise (*medegerechtigde*), to which enterprise the Securities are attributable; or
- (ii) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which include the performance of activities with respect to the Securities that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor condition (ii) applies to the holder of the Securities, taxable income with regard to the Securities must be determined on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return on income from savings and investments has been fixed at a rate of 4% of the average of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year and the individual's yield basis at the end of the calendar year, insofar as the average exceeds a certain threshold. The average of the individual's yield basis is determined as the fair market value of certain qualifying assets held by the holder of the Securities less the fair market value of certain qualifying liabilities on 1 January and 31 December, divided by two. The fair market value of the Securities will be included as an asset in the individual's yield basis. The deemed return on income from savings and investments of 4% will be taxed at a rate of 30 %.

(b) Non-residents of the Netherlands

If a holder is not a resident nor deemed to be a resident of the Netherlands for Netherlands tax purposes (nor has opted to be taxed as a resident of the Netherlands), such holder is not taxable in respect of income derived from the Securities and gains realised upon the settlement, redemption or disposal of the Securities, except:

- (i) if the holder is not an individual and such holder (1) has an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands to which permanent establishment or permanent representative the Securities are attributable, or (2) is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, that is effectively managed in the Netherlands (other than by way of securities) and to which enterprise the Securities are attributable.

This income is subject to Netherlands corporate income tax up to a maximum rate of 25.5%.

- (ii) if the holder is an individual and such holder (1) has an enterprise or an interest in an enterprise that is in whole or in part carried on through a permanent establishment or a permanent representative in the Netherlands to which permanent establishment or permanent representative the Securities are attributable, or (2) realizes income or gains with respect to the Securities that qualify as income from miscellaneous activities in the Netherlands, which activities include the performance of activities in the Netherlands with respect to the Securities that exceed regular, active portfolio management, or (3) is entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands (other than by way of securities or an employment contract) and to which enterprise the Securities are attributable.

Income derived from the Securities as specified under (1) and (2) by an individual is subject to individual income tax up to a maximum rate of 52%. Income derived from the Securities as specified under (3) will be taxed at a rate of 30 % over the 4% deemed return on income from savings and investments.

Gift and Inheritance taxes

(a) Residents of the Netherlands

Generally, gift and inheritance taxes will be due in the Netherlands in respect of the acquisition of the Securities by way of a gift by, or on the death of, a holder that is a resident or deemed to be a resident of the Netherlands for the purposes of Netherlands gift and inheritance tax at the time of the gift or his or her death.

A holder of the Netherlands nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift and inheritance tax, if he or she has been resident in the Netherlands during the ten years preceding the gift or his or her death. A holder of any other nationality is deemed to be a resident of the Netherlands for the purposes of the Netherlands gift tax if he or she has been resident in the Netherlands at any time during the twelve months preceding the time of the gift. The same twelve-month rule may apply to entities that have transferred their seat of residence out of the Netherlands.

(b) Non-residents of the Netherlands

No gift or inheritance taxes will arise in the Netherlands in respect of the acquisition of the Securities by way of gift by or as a result of the death of a holder that is neither a resident nor deemed to be a resident of the Netherlands for the purposes of the Netherlands gift and inheritance tax, unless:

- (i) such holder at the time of the gift, or at the time of his or her death, has an enterprise or an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands and to which permanent establishment or a permanent representative, the Securities are (deemed to be) attributable; or
- (ii) in the case of a gift of the Securities by a holder who at the date of the gift was neither a resident nor deemed to be a resident of the Netherlands, such holder dies within 180 days after the date of the gift, while at the time of his or her death being a resident or deemed to be a resident of the Netherlands.

Value added tax

In general, no value added tax will arise in respect of payments in consideration for the issue of the Securities or in respect of the cash payment made under the Securities, or in respect of a transfer of Securities.

Other taxes and duties

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty, will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Securities.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries).

Also with effect from 1st July, 2005, a number of non-EU countries including Switzerland, and certain dependent or associated territories of certain Member States have agreed to adopt similar measures

(either provision of information or transitional withholding) (a withholding system in the case of Switzerland) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

On 15 September 2008 the European Commission issued a report to the Council of the European Union on the operation of the Directive, which included the Commission's advice on the need for changes to the Directive. On 13 November 2008 the European Commission published a more detailed proposal for amendments to the Directive, which included a number of suggested changes. If any of those proposed changes are made in relation to the Directive, they may amend or broaden the scope of the requirements described above.

OFFER RESTRICTIONS

Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. (Rabobank International) and UBS Limited (together the “**Dealer Managers**”) have agreed to act as dealer managers in respect of the Exchange Offer under a dealer manager agreement to be entered into by the Dealer Managers and the Issuer on or about 15 July 2009 (the “**Dealer Manager Agreement**”).

Pursuant to the Dealer Manager Agreement, the Issuer has agreed to sell to the Dealer Managers and each Dealer Manager has jointly and severally agreed to procure purchasers for, the principal amount of the New Issue Securities (if any).

The Dealer Managers initially propose to offer and sell the New Issue Securities at the price set forth on the cover page of this Prospectus. The Dealer Managers may offer and sell the New Issue Securities through certain of their affiliates. A commission of 1.0 – 1.5 per cent. will be payable to the Dealer Managers for placing any New Issue Securities.

In the Dealer Manager Agreement, the Issuer has agreed to indemnify each Dealer Manager, its affiliates, directors, officers, partners, employees, representatives, agents and controlling persons against certain liabilities in connection with this offering and to contribute to payments that the Dealer Managers may be required to make in respect thereof.

United States

The Securities have not been and will not be registered under the US Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold within the United States or to, or for the account or benefit of, US persons except in certain transactions exempt from or not subject to the registration requirements of the Securities Act.

Each Dealer Manager has agreed that it will not offer, sell or deliver Securities (i) as part of their distribution at any time, and (ii) otherwise until 40 days after the completion of the distribution of the Securities within the United States or to, or for the account or benefit of, US persons, and that it will have sent to each dealer to which it sells Securities during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of US persons. The terms used in the preceding paragraph and in this paragraph have the meaning assigned to them by Regulation S under the Securities Act.

The Securities are subject to US tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a US person, except in certain transactions permitted by US tax regulations. Terms used in this paragraph have the meanings assigned to them by the US Internal Revenue Code of 1986, as amended and US Treasury regulations issued thereunder.

In addition, until 40 days after the completion of the distribution of all Securities, an offer or sale of Securities within the United States by any Dealer Manager (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

European Economic Area

In relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer Manager has represented and agreed that, with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”), it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Prospectus to the public in that Relevant

Member State, other than the offers contemplated in this Prospectus in Belgium, France, Germany, Ireland, the Grand Duchy of Luxembourg, the Netherlands, Portugal, Spain and the United Kingdom from the time the Prospectus has been approved by the AFM in the Netherlands and published and notified to the relevant competent authorities in accordance with the Prospectus Directive as implemented in Belgium, France, Germany, Ireland, the Grand Duchy of Luxembourg, Portugal, Spain and the United Kingdom, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Securities to the public in that Relevant Member State:

- (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than EUR 43,000,000 and (3) an annual net turnover of more than EUR 50,000,000, as shown in its last annual or consolidated accounts;
- (c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive); or
- (d) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Securities shall require the Issuer, the Guarantor or either of the Dealer Managers to publish a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Securities to the public” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.
